

NOV 18 1929

RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

RAYMOND

The site of the One Million Dollar Factory of the Canadian Sugar Factories, Ltd. In the center of the beet-raising district of Southern Alberta.

Raymond Recorder

Vol. 28

FRIDAY, NOVEMBER 15, 1929

No 41

News Notes

Miss Thelma Cahoon spent Monday and Tuesday visiting in Raymond.

Boys Ft. May Magrath, was a visitor in Raymond on Thursday.

Mr. and Mrs. M. Rayo Woolf were Lethbridge visitors on Thanksgiving Day.

Raymond's four day Chautauqui starts Friday Nov. 22, with programs Saturday, Monday and Tuesday.

J. U. Michener, of Barber Ellis Ltd. Calgary, was a Raymond visitor Wednesday and Thursday of this week.

A. A. McGillivray, for four years leader of the Provincial Conservatives, has resigned due to the demands of his practise as a lawyer.

Mr. and Mrs. Kenneth Allred of Cardston, spent the week-end with Mr. and Mrs. S. E. Low, returning to Cardston Monday afternoon.

Armistice Day consisted mostly of punishing the Bird of Cranberry, suffering for it afterwards; putting up a few storm windows, storm doors, and similar odd jobs.

Arthur Fournier of Passburg, won the Lethbridge Herald Road Race on Monday in the record time of 16, 35 and 1-5. Jack Deal, Bellevue, won the Junior race of 1 1/2 miles in the very good time of 8, 27 and 2-5.

It looks like a Sugar Factory may be built in the Lethbridge Northern. 6,000 acres have been signed up for next year. 2,000 acres more are in sight, and 800 farmers are converted to sugar beet growing. Of course there is nothing definite, but the Picture Butte and Iron Springs people want a factory.

A successful Shoot on Thanksgiving Day by a number of local hunters was followed on Wednesday evening by a very delicious Duck Supper served at the home of Mr. and Mrs. T. George Wood. Those present were Mr. and Mrs. T. Geo. Wood, Mr. and Mrs. F. R. Taylor, Mr. and Mrs. W. C. Stone, Mr. and Mrs. Paul Redd, Mr. and Mrs. Wm. Redd, and Louis Brandley.

Welling News

(From our own correspondent)

All the beets are up now and the busy fall work is about over.

Mr. V. A. Coleman attended the teachers convention at Lethbridge last week.

Many people from here attended conference at Raymond.

Miss Ethel Peterson from Picture Butte spent Thanksgiving Day with her parents Mr. and Mrs. C. D. Peterson.

Miss Bertha Egard spent the week end the guest of Miss Leona Peterson. Stanley Ellis is building Floyd White a garage near his home. Mr. Ellis and his men are also finishing the upstairs of C. D. Peterson's home.

The furnace has been put in the new church and the building is rapidly nearing completion. We hope to hold meeting in it by December 1st.

Several homes in the district have been wired for electric lights. They will secure their power from the Calgary Power Co.

Monday found nearly everybody eating turkey. Many attended the dance in the Opera House at night.

Mr. and Mrs. Morel Elder and family and Mr. and Mrs. Gerald Gray and family were the guests of Mr. and Mrs. George Bullock for dinner Monday.

Mr. and Mrs. George Rasmussen and family accompanied by Miss Orpha Vance were guests of N. W. Peterson for Thanksgiving dinner.

Mr. and Mrs. A. S. Bullock and General and Ray Bullock spent Thanksgiving Day with Mr. and Mrs. Amasa Bullock at Raymond.

Mr. and Mrs. Le Roi Chipman and family accompanied by Misses General Bullock and Julia Cox motored to Lethbridge Tuesday.

Are you a paid-up Subscriber?

Mrs. Aziel Stevenson left this morning for Downey, Idaho, to spend the winter with relatives.

Don't burn your silver paper. Give it to Bill Rouse or leave it at this office and it will be sent to the Shrine Orphanage at Winnipeg, which institution disposes of the paper to get money to keep it going. Local men are merely asking for this to help out a good cause. Will you do your part?

THE TWO KINDS

With Apologies to Edgar A. Guest

Men are of two kinds and he
Was of the kind I'd hate to be;
He'd talk and talk, and still he'd talk
Yet always be the first to kneel.

When the gravel was nethered in
He'd talk until his lip was thin;
Of how and when and where and why
But never do a thing, and why?

If someone said "Here show us how,"
He'd then retreat with courtly bow;
And he himself to quiet nook,
And sink his head into a book.

But when the job was done and well,
His bosom great with pride did swell;
And days and days did tell folks how,
We built the road, banished the slough.

Men are of two kinds and he,
Was of the kind I'd hate to be;
Give me the man who works, and who
Leaves bragging to the boasting few.

DID YOU EVER STOP TO THINK

(Edson R. Walke)

For some years past, Manitoba, Canada, has set aside a day each year known as a Made-in-Manitoba day, and now the Manitoba Industrial Development Board is starting a new feature by setting aside a day each month under the same name and urging citizens throughout the province to support their own provincial made goods that day.

Manitoba is to be congratulated on this progressive movement. It no doubt will do much to make the home folks learn to buy and use Manitoba products every day.

Spending money in the home community is the best way to bring and keep prosperity in the community.

The success of a community is founded on the confidence its citizens have in it, and it will be just what its citizens make it.

Individuals will be prosperous only when their community is prosperous.

No influence can hinder or retard the growth of a community that has constantly year after year instilled in its citizens a spirit of progress.

THE BUY-AT-HOME IS A FORCE THAT WILL GO AHEAD AND BRING A COMPLETE VICTORY OVER ANY AND ALL OBSTACLES.

Quarterly Conference Report

Quarterly Conference of the Taylor Stake of Zion commenced on Saturday evening Nov. 9th, with Pres H. S. Allen conducting with a Priesthood Convention featured by reports and instructions to the various quorums from members of Stake Presidency and also from J. Golden Kimball, one of the First Seven Presidents of Seventy who was here representing the General Authorities. The attendance was good for Saturday evening and a deal of valuable instruction was received by the members of the various quorums.

Sunday morning at 10 a.m. the Stake House was filled to overflowing when "Now Let Us Rejoice" was announced as the opening song. M. Wilde offered the opening prayer and the congregation joined in singing "Let Us All Praise On". Eight short talks were then given as follows: It is My Duty and Privilege to Seek First the Kingdom of God and His Righteousness; by Ellis Heninger; "To enjoy a Happy Home Life," J. U. Allred; "To Win Vocational Success," T. O. King; "To be Physically Intellectually and Morally Strong," Elmer Spackman; "To Work, to Play and to Love," P. H. Redd, and "Through Fasting and Prayer to enjoy the Spirit of God," J. S. Anderson. A male chorus under the direction of W. C. Stone rendered a very nice number.

Pres Kimball spoke on the experiences of the Saints in pioneering and said that without a testimony that Jesus is the Christ no man or woman can stand. We will be beset with trouble and afflictions to test us and see if we will be true. Converts from the British Isles and the Scandinavian countries had been the backbone of the church and it was the belief of the speaker that the church was full of men and women who had faith enough to obey the call of authority whether they could see their way clear financially to the end or not, they would obey and take the first step.

Singing of "Onward Christian Soldiers" and prayer by Albert Brandley concluded the session.

AFTERNOON SERVICES

The business meeting of the conference opened by singing "The Spirit of God Like a Fire is Burning," prayer by Bishop A. E. Fawns and an anthem by the choir, "Ye Simple Souls, who Stray."

The names of the General Church and Stake authorities were presented by 1st Councillor O. H. Snow, who then spoke of his long acquaintance with Pres. Kimball and related a number of faith promoting experiences from his mission.

A Baritone Solo was then rendered by Wm. Clark, 2nd. Councillor J. W. Evans spoke next on the power of song and encouraged every Latter Day Saint to learn how to sing. He also spoke of the responsibility one assumes when he accepts the Priesthood, and said that some quorums were so forgetful of their promises that their attendance fell as low as 11 per cent. He made a strong plea for more interest in priesthood work and spoke of the value of good surroundings for our youth.

President H. S. Allen spoke of the laxity of attention in the Priesthood Quorums and read from Sec. 121 of the Doc. and Cov. He thought that probably the Priesthood was too common and too easily obtained and made a strong plea for better attendance in Priesthood quorums.

The choir then sang the anthem "With One United Voice."

Pres Kimball said he knew there was power in song, and he wished the people would sing more and grow less. Friends are very valuable possessions and we need them more when we are wrong than when we are right, but generally our friends turn their backs on us if we get off the straight and narrow path. Every member of the church has a gift, is entitled to the companionship of the Holy Ghost which Comforter will function just as often as we will let it. Prophecy is always fulfilled, the powers of the Priesthood are inseparably connected with Heaven and the fact, that we pretend to be what we are not, were other high points of President Kimball's valuable address.

The choir sang "Let the Mountains

RAYMOND MAN CONDUCTS FIRST MEETING OF COLLEGE COSMOPOLITAN CLUB

Logan, Nov. 1. Verdan Larson of Raymond, Alberta, Canada, a junior at the Utah State Agricultural College, has been appointed president of the college Cosmopolitan club, and conducted its first meeting and dinner of the year, Tuesday, November 5, at Hotel Eccles. The subject of the meeting was post war Germany which was discussed from three angles, Business, Music and Cities. Three returned L. D. S. missionaries talked on these subjects.

Mr. Larson is registered in the school of Agriculture and is majoring in agricultural economics and minor in poultry production. He is also a member of the Ag. club.

Local Happenings

T. Geo. Wood is driving a new Stude baker Sedan.

A Banquet for members and prospective members of the Orphans Glee Club Male Chorus will be held at the home of Wilford Meldrum on Wednesday evening, Nov. 20th. A good time is anticipated and members are requested to keep this date in mind.

BUY ALBERTA MADE PRODUCTS FOR CHRISTMAS

At this season of the year when thoughts are turning to Christmas and the exchanging of presents it would be well for the citizens of Alberta to remember the efforts of the Alberta Development Board in its campaign urging the purchase of Alberta Made Goods.

The merchants of the province co-operate in stocking and displaying Alberta Made Products. How can we expect the retailer to do his part if the consumers do not take the step in the right direction and make their purchases wherever possible of the products of Alberta factories?

The manufacturers of the Province are prepared to stand by the quality of their products and only ask for business on the merits of their goods. They make as good, if not better, products as are produced elsewhere.

The farmers of the district know that part of their revenue comes from the city and it is only an act of co-operation for them to buy Alberta Made Goods in return. Money spent in our own province comes back to us again but money spent for goods produced outside of the province goes away and keeps on travelling.

It is only by working in harmony that the greatest good can be accomplished. Ask your storekeeper to show you some of the products of Alberta's factories and compare the prices and values with other manufacturers. Let's all work together this Christmas and support Alberta Made Products.

Shout for Joy", and the benediction was pronounced by J. T. Heninger.

SUNDAY EVENING

The Sunday evening meeting was under the direction of the M. I. A. and Stake Superintendent C. R. Wing was in charge. "O Say What is Truth" was the opening song, prayer by W. A. Keith and then the choir sang the "Recessional".

Supt. Wing gave a report on the work of the M. I. A. in the Stake particularly the Era drive.

A piano duet was rendered by Opal Wiggill and Ethel Tollestrup and a short talk given on the slogan by S. I. May.

Mrs. Watson rendered a Soprano Solo and then G. L. Woolf of Magrath who has been called to preside over the French Mission spoke for a few minutes.

Paul Redd rendered a Cornet Solo, Wm. Clark of Strling sang "The Trumpet" and "I know that My Redeemer Lives," and then Pres. Kimball spoke on the dangers of the age and the responsibility of the older ones in warning the youth and helping them pass the pitfalls. His advice was to keep the young people busy at useful labor and said he, "there is nothing more sorrowful than a human wreck."

"Have I Done Any Good in the World" and prayer by Pres. J. W. Evans, concluded the Conference.

TRENDS IN AGRICULTURE DISCUSSED BY T. GEO. WOOD

T. Geo. Wood, District Manager of the Canadian Sugar Factories gave local people something to think about in a paper he delivered at Saturday evening session of Conference on Nov. 9th. The text of his paper follows: Along with the increased prosperity which has come to Southern Alberta since the establishment of a sugar factory, certain problems have arisen which farmers should strive to not only overcome but be prepared for the opportunities that come, many of which may not be available later, after the choice land is taken up by others. An appeal was made in behalf of the young men of the communities who should be encouraged in the purchasing of land and that farmers should by all means not only retain their land under the ditch but teach the value of more intensive farming to their sons.

There is a tendency among young men to drift away from the irrigated farms to take up cheaper dry land on a more extensive scale, while the control of irrigated lands is passing into the hands of others.

To retain our irrigated lands the speaker said we must have:

"(1) More intensive farming of the irrigated land with increased fertilization. We must have more 12 and 14 ton beet crops and less 6, 7 and 8 ton crops. Farms must be handled in smaller units, with eighties and quarters sections supporting a family.

"(2) Every farm growing sugar beet should have at least 10 acres, well manured for beets each year. This means sufficient stock on the farm for that purpose. Livestock require care—we should have dairying, more alfalfa, hogs and cattle. It amounts to this, that people should in many cases actually move to their farms, live there and make every resource count towards their living. Living in town and farming out is almost fatal.

"(3) More encouragement should be given our young people to devote themselves to intensive irrigation farming both in raising of livestock, dairying and the cultivation of sugar beets. It is displeasing that here in Raymond we ship only two or three cans of cream a week. We have heard people say, 'No children of mine shall ever thin beets.' This attitude is wrong if we expect our children to inherit these farms. Pig clubs, calf clubs, beet contests should be encouraged in the life of every one of our youngsters.

"(4) We should not sell our lands except in dire necessity. Those of our people who have land for sale should, if possible, give preference to our young people, even to the extent of more lenient terms, so that this heritage may remain for our children."

The factory executive urged that our European neighbors be treated fairly in all dealings and encouraged farmers to provide share contracts, or as tenants farmers. They should be given decent living quarters as provided in their beet contracts.

"OH YEAH" PICTURED ON HISTORIC RIVER

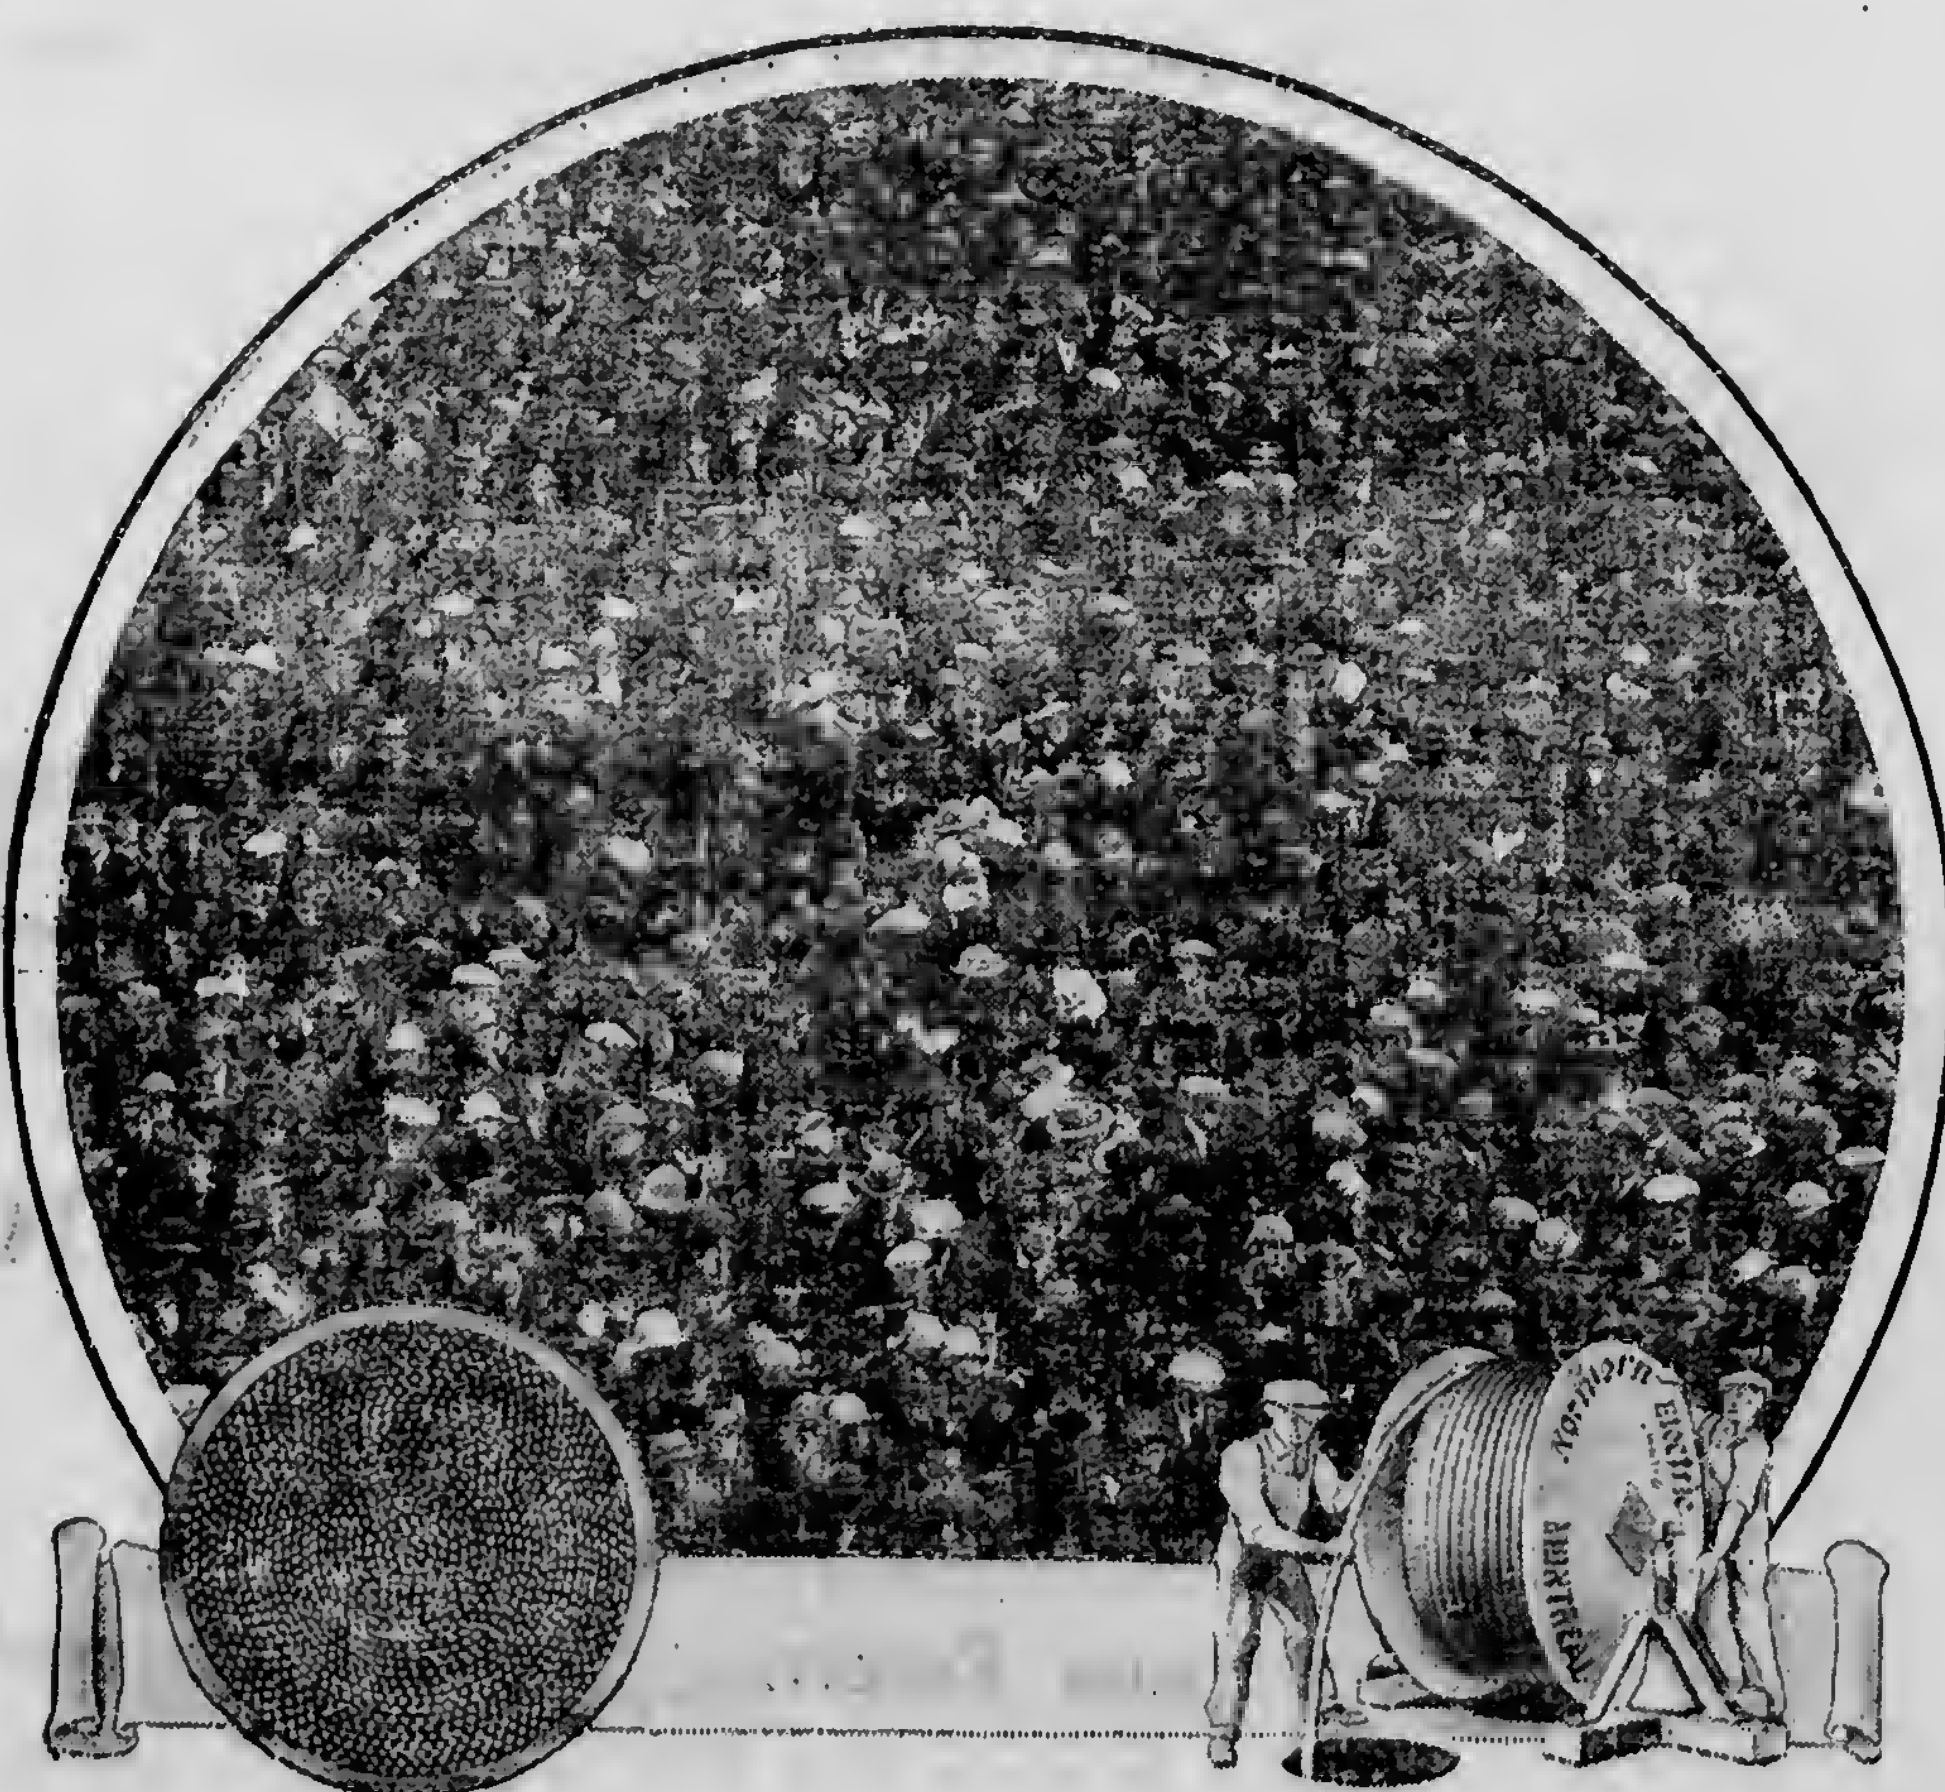

SCENE OF COMEDY FILMED ALONG THE BEAUTIFUL FEATHER

The beautiful Feather district of upper California, near Paxton, forms a beautiful background to much of the thrilling action which adds to the climax of "Oh, Yeah," Pathe's all dialogue comedy featuring Robert Armstrong and James Gleason which comes to the Capitol Theatre on 22-23 next. Tay Garnett, the director, took the company there from Culver City to shoot a sensational runaway train sequence in which Armstrong and Gleason figure as brakemen.

"Oh, Yeah!" is essentially a comedy with dialogue written by Gleason, and is said to be worthy successor to his stage triumph, "Is Zat So?", in which he toured the United States and England with Bob Armstrong. It is the first time Armstrong and Gleason have been together since they both started to appear in pictures more than a year ago.

The story of "Oh, Yeah!" is based upon "No Brakes," written by A. W. Somerville, which appeared in the Saturday Evening Post. The cast includes besides Armstrong and Gleason, Patricia Carson, Zasu Pitts, Paul Hurst and Frank Hagney.

2,400 People Converse With Ease Through a Small Lead Tube

Imagine the roar of 2,400 voices confined within the walls of one huge room!

What a babel of confusion if the people in that room should try to shout messages to each other! Yet, through a lead tube, only 2 1/2 inches in diameter, 2,400 people may converse at the same time with ease, without confusion and in strict privacy.

This lead tube (illustrated in section above) is the casing of a telephone cable manufactured in the Montreal plant of the Northern Electric Company, containing over 1,200 pairs of insulated wires, each pair connecting at one end with a telephone instrument and at the other a central exchange. In the large Canadian cities there are scores of such telephone cables.

WHY! OH WHY! OH WHY!

We hardly ever go up the street but we see some notice of "Tenders for some work, and sundry other notices posted and nailed here and there to tell the world about it. We wonder why some of these are not put in the paper. We even have people bring us advertisements, that should by all means go in the paper; ask a price on them, leave them awhile with orders for insertion, and then come and cancel the same because the law doesn't compel them to put them in the paper, but provides that they may be posted up in a post office or such building, and our post office walls look like a crazy patch quilt.

We see so many of these that we almost think that every newspaper editor should be a millionaire, so he could run the paper without any advertising. People want to get the news and all the news, but some never want to spend a dollar to help defray the expenses incurred in publishing a paper.

We appreciate those who believe in the gospel of "live and let live," and whose support make possible a home town paper for \$2.00 a year, which amount hardly pays for the paper and ink used in its manufacture.

We appreciate the men and women who want to assist us to make the paper better and who pay their subscriptions and assist us by giving us news items, etc. and giving us what work they can.

The psychology of some people we can't understand. They won't subscribe a dollar for advertising if the law leaves a loophole they can squeeze through; and yet they never fail to ask for free advertising and call the editor everything from a lizard up if they don't get it. Always looking for something for nothing, and howling because they don't get it.

Sometimes we wonder why we chose the vocation of an editor.

The father of L. L. Pack returned to his home in Utah on Monday.

At a recent School Teachers Convention in Lethbridge, J. H. Blackmore, Principal of Raymond High School, was elected President of the Association. We know of few teachers more deserving of the honor than Mr. Blackmore.

THOUSANDS OF CATTLE AND SHEEP WILL BE FED AND FINISHED AT CORRALS, RAYMOND SUGAR FACTORY

From the prevailing interest and enthusiasm among local farmers and stock growers regarding livestock feeding, Raymond will soon become one of the largest stock feeding centres of Alberta, if not Western Canada.

Thousands of head of livestock, which will include cattle and sheep, are being purchased for the purpose of fattening and putting into shape for the market. Marked success attended the effort of those who fed livestock here last winter, which is reflected in the increased interest and numbers going into the business this fall and winter.

Raymond will become the centre for supplying the market with the finished product.

Contracts have already been made by several local men with the T. Eaton company and Hudson's Bay to furnish them with all their requirements in choice baby beef. Most of the young and old cattle will be marketed and supplied by the Red Label Bee Breeders' association, of which many local livestock men are members. The cattle will be supplied from the range or finishing purposes from the best herds of the McIntyre ranching company, Gilchrist Brothers and Ward ones, of the C. P. R. livestock department. Thousands of head of lambs will be prepared for the market this winter from local feeding grounds. Lambs are beginning to arrive here from outside points and are now feeding on best tops in fields where the crops have been taken off.

Later in the season the lambs will be supplied with a variety of feed consisting of beet pulp, alfalfa, chopped barley, beet molasses, also other grains. Practically all those feeding will furnish their own feed grounds for feeding purposes and will have the advantage of the fertilizer which will be spread over the beet land during the winter and early spring.

The Provincial Government has promised co-operation and will provide a feeding expert who will make frequent inspection during the season and will offer suggestions from time to time on the proper ration and quantities of feed to supply.

The Southern Alberta Co-op. will assist in the marketing of practically all of the cattle as well as the sheep. A local branch of the Red Label Beef Breeders' association will be formed here this winter, and it will be their aim to build up a big business on the finest quality of baby beef, which they will supply the markets.

Among the many local men who have from 500 to 2500 head of livestock ready for the feeding grounds are the following: Meeks Bros., H. S. Allen and Sons, A. E. Foote, Don

Wilde, T. George Wood, Reid Bros., Frank Taylor, Leslie Graydon, J. B. Roberts, Wm. Fisher, Jesse Wilde, J. W. Evans, David Ross, Don Ross and Nelson E. Graham, Ernest Robinson, and others.

WIT AND WISDOM

Take care that the face which looks on from your mirror in the morning is a pleasant face. You may not see it all day, but others will.

Even highbrows are attracted by the promise of refreshments.

"If you expose yourself to enough business, you'll catch some."

All that business asks of a graduate is that he shall have learned how to learn.

By the time you're able to boast about how your hens lay you find that everybody's hens are laying.

He proposed to her in the automobile and she accepted him in the hospital.

You know how Lady Godiva felt when you remember the first time you appeared on the street in knickers.

Beauty is only skin deep, but ugliness shows through the paint.

A lifetime of good example is better than a library of good advice.

It's the little things that count. A "e" changes fasting to feasting.

A straight flush is as rare on the face of the modern girl as it is in a poker game.

After storm—calm; after strife—success.

The greatest place on earth is usually some other place.

Don't kick if your employer kicks. If you're worth correcting, you're worth keeping.

Say silly things, if you must, but don't do them.

News Notes

A son was born to Mr. and Mrs. Marshall Milner on Sunday, Nov. 10th. Mother and babe are doing nicely.

Hon. J. A. Robb, Minister of Finance in the present Liberal government, died in his rooms in the Royal York Hotel Monday afternoon just when it was believed he was out of danger. Apoplexy, following an attack of pneumonia, was the cause of death.

R. S. A. NOTES
 The attendance at the Raymond School of Agriculture continues to grow. At present eighty-eight students are enrolled, divided among the various years as follows:
 Second year boys, 15,
 Second year girls, 10,
 First year boys, 30,
 First year girls, 24,
 Total, 89
 Present indications are that a total enrollment of ninety will be attained.

Dr. P. R. Talbot, Provincial Veterinarian made an official call at the school on Wednesday last. Dr. Talbot is particularly interested in a number of livestock experiments which have been conducted at the R. S. A. by Mr. C. O. Asplund, instructor in Animal Husbandry.

Mr. C. O. Asplund, and Mr. T. C. McBeath, our former science instructor, were visitors at the McIntyre ranch last Friday when Mr. Asplund selected and purchased five hereford calves for the R. S. A. farm.

Mr. T. C. McBeath a former member of the R. S. A. staff and who has been supervising fertilizer experimental work for the Consolidated Mining and Smelting Co. of Canada, left for Calgary last week. "Mac" has been making the school his headquarters, and has been busy tabulating the results from fertilizer experiments for the past few weeks. Much valuable information has been obtained as a result of the Summers work.

Mr. C. S. Acheson, Instructor in

Farm Mechanics, is organizing a strong farm tractor course. Already five tractors have been procured for instructional purposes. These have been loaned by various farm tractor companies. A very keen interest has been taken in the farm mechanics course.

Due to increased attendance at the School, it has been found necessary to provide considerable new equipment and supplies. They are now coming forward and are rapidly being put to use.

Staff and students were sorry to learn of the illness of Dean Howes, which has necessitated the cancelling of his tour of Southern Alberta. The Dean was scheduled to address a public meeting at the Raymond School of Agriculture on Wednesday evening. We trust at a later date he may be able to visit the school.

The opening School dance will be held on Saturday evening, November 16th. As has been the custom in the past, admission will be by invitation. Refreshments will be served. A large crowd and a good time is anticipated.

MOTOR CLUBS MAY SOON HAVE UNIFORM TRAFFIC REGULATIONS

Long favored by Alberta motorists and approved by the Canadian Automobile Association, the movement for a uniform code of traffic laws in the dominion is being well advanced. In all likelihood, definite action will be taken when the Canadian Bar Association deals with draft reports at its next convention in Quebec during October.

Speakers at conventions of the Alberta Motor Association have frequently stressed the need of standard traffic regulations for all parts of the dominion. There has been confusion and at times, accidents, when tourists have been in various provinces, due to the rules of the road not being the same as in the province they had just left.

Now the Canadian Bar Association composed of legal men who realize the need of uniformity just as motorists do, has had a committee working on a draft which will be submitted at the next convention. This is being considered by Hon. J. F. Lymburn, the Alberta representative on the committee, who will present his report to the convention.

Standard regulating of the speed to be travelled and the loads to be carried will be dealt with in the committee's report, which will be awaited with interest by motorists in all parts of the dominion.

The Womens Institute desire to express their appreciation to the G. W. Veterans for their most efficient help in putting over the Armistice Dance, and the general public for their patronage at the dance. They also thank the public and school children for their patronage on Poppy Day.

Mrs. F. W. Leavitt.

GENERAL CONDITIONS

Business throughout the Dominion
has been for the most part good,
although there is a general feeling
that the level of trade during the winter
will hardly be as high as a year
ago. On the whole manufacturing con-
tinues active, factories at several cen-
tres reporting that they are operating
at capacity. Wholesale and retail
trade has been good, but the mild wea-
ther of the last month has retarded
sales of clothing in some districts.
Railway loading in Western Canada
are somewhat less than a year ago,
but in Eastern Canada they have been
uniformly heavy from the beginning
of June to the end of October.

The iron and steel industry, which
is yearly becoming of greater import-
ance in this country, maintains a fairly
steady output at a high level, except
in those branches which are dependent
upon the automobile industry. The
temporary halt in the activities of
the latter is almost the only unsatis-
factory element in the general indus-
trial situation.

The lumber market continues to be
full in spite of the fact that produc-
tion has been on a restricted scale.
The Atlantic Coast continues oak and
the chief export demand is from Aus-
tralia and Japan. This winter's cut of
pulpwood should be heavy, as the dem-
and is active. A considerable number
of men thrown out of employment
through stagnation in a few centres
have already been absorbed by pulp-
wood operators.

Strong competition from Norway,
especially in the Cuban market, has
been an unsatisfactory feature of the
Atlantic fisheries. Siberian salmon is
also competing with the British Col-
umbia pack in Great Britain, but the
domestic and Australian markets
may be expected to absorb most, if
not all of the total pack, which is
short in every class but sockeyes,
with a marked shortage in pinks and
chums.

Construction continues on a high
level. MacLean Building Reports Lim-
ited gives the total contracts awarded
during October at \$57,053,300 or \$12-
500,000 above the total for October,
1928. Of this over \$27,000,000 is ac-
counted for by engineering contracts,
including \$10,000,000 on account of
the vast power development scheme
at Beauharnois, which may be expec-
ted to swell the total contracts for
the next six months. The Bank esti-
mates that on the basis of contracts awar-
ded for work as yet uncompleted,
the country has in sight construction
totaling \$250,000,000 in value as
against about \$210,000,000 at this
time last year, an increase of approxi-
mately 20 per cent. It is gratifying
to note that the value of contracts for
industrial buildings, hitherto showing a
seasonal recession, is on a much higher
level than a year ago and that the num-
bers of factories erected in Canada
by American companies continues to
expand, a tribute to the fundamental
soundness of labour and other condi-
tions in this country.

The unusually dry autumn in cen-
tral Canada and the greater part of
the West has retarded fall ploughing
and diminished the returns from dair-
herds. It will require to be offset in
a large measure by a good rainfall
before the winter sets in, if soil con-
ditions in the spring are to be satis-
factor.

HOW TO EAT

We are very often told how to eat
and how important it is that our
meals consist of a variety of foods.
The proper selection of foods is the
first item to be considered, and the
next is to eat food in the right way
after it has been selected. The follow-
ing suggestions are made to cover the
important subject of How To Eat.

Moderation should be practised at
all times. It is harmful to overeat,
even of the proper foods. Excess does
harm; it throws an unreasonable
strain on the body and so tends to
wear it out early. Premature old age
is the common result of neglect of the
slogan, "moderation."

Meals should be eaten in a quiet,
restful manner. Food is not readily
digested when the body is tired, or
when the individual is worried or angry.
A rest before meals is recommended
to overcome body fatigue. Arguments

or so-called should never be carried
on at meal-time. Active exercise
should not be taken immediately after
eating. Exercise is needed by the body
but so is rest, and one of the times
when comparative rest is required by
the body is after eating.

This same idea of rest is the reason
why meals should be eaten regularly.
The number of meals and the hour is
a matter of individual preference and
custom. When meals are eaten irregu-
larly, or when food is taken between
meals, the digestive system is no
given the periods of rest which it re-
quires if it is to do its work properly.
Eating between meals should be avoided.
The person who requires extra nour-
ishment should take it regularly.

Nature has provided means for the
mastication of food. Food should be
eaten slowly and it should be thoroug-
ly chewed before it is swallowed. I
should not be washed down with
drink before it is masticated. There
is no objection to the use of beverage
in moderation with meals, but they
should be taken when the mouth is
empty.

Moderation at all times!—that is
How To Eat!
